Spring Haircuts!

Our sheep had their annual spring clipping last week. Called "crutching", the practice of

shearing a horseshoe shape around their back legs and tail, means there is no wool to catch the inevitable runny poop that results from their first foray onto rich pasture!

Can you help us?

Running a farm is hard work, and there always projects that we just can't get to because there are not enough hours in a day (even with Daylight Saving Time!!). So we're reaching out to you – our loyal customers, friends and followers – to see if you'd be interested in helping out around the farm. Whether it's working in the garden, helping with the animals, cutting, splitting and stacking firewood, or assisting with an infrastructure project, we need your help. If you can commit to a few hours a week or month, or whatever time you can spare, please let us know. Call us at 613-394-1139.
